

## Problem Statement

1. How to Import SAS XPORT Files into R With The foreign package

Ans : # Activate the 'foreign' library

```
install.packages("foreign")
```

```
#Loading
```

```
library(foreign)
```

```
# Read the SASXPORT
```

```
mydata <- read.xport("example.xpt")
```

2. How To Import SAS Files into R With The haven Package?

Ans : # Activate the 'haven' library

```
install.packages("haven")
```

```
#Loading
```

```
library(haven)
```

```
# Read the SAS
```

```
mydata <- read.sas("example.sas7bdat", "example.sas7bcat")
```

3. How to read Weka Attribute-Relation File Format (ARFF) files in R?

Ans : # Read the arff

```
mydata <- read.arff(file)
```

4. How to read a heavy csv/tsv file using readr package?

Ans : # Activate the 'readr' library

```
install.packages("readr")
```

```
#Loading
```

```
library(readr)
```

```
# Read the SASXPORT
```

```
mydata <- read.csv("example.csv")
```

```
mydata <- read.tsv("example.txt")
```
