## Problem Statement

1. How to Import SAS XPORT Files into R With The foreign package

Ans : # Activate the 'foreign ' library

```
Install.pacakages("foreign")

#Loading

Library (foreign)

# Read the SASXPORT

mydata <- read.xport("example.xpt")
```

2. How To Import SAS Files into R With The haven Package?

Ans : # Activate the 'haven' library

```
Install.pacakages("haven")

#Loading

Library (heaven)

# Read the SAS

mydata <- read.sas("example.sas7bdat" , "example.sas7bcat")
```

3. How to read Weka Attribute-Relation File Format (ARFF) files in R?

Ans : # Read the arff

```
mydata <- read.arff(file)
```

4. How to read a heavy csv/tsv file using readr package?

Ans : # Activate the 'foreign ' library

```
Install.pacakages("readr")

#Loading

Library (readr)

# Read the csv/tsv

df <- read_table("",

                col_names=TRUE)
```
